

## How to access MCC online systems

Your user ID and password are mailed to you as part of the enrollment process, or, if you have given us a home e-mail address, a user ID is e-mailed to you and you set up your password online.

Go to [www.mcckc.edu](http://www.mcckc.edu), click on **myMCCKC** and use your userID and password to gain access to these online services. The password is automatically synchronized with Student Center, student e-mail and network login.

- **METROLINK STUDENT CENTER**

Here you can view records, grades and personal information, enroll/drop classes, monitor financial aid, request transcripts and more.

- **STUDENT e-MAIL**

This is used by MCC and faculty to send you important information. It is powered by Google and gives you plenty of space, less spam and access from anywhere. Your e-mail address will employ your user ID, such as: S0234567@Student.MCCKC.edu

- **BLACKBOARD**

**Blackboard** is the online learning system used for internet, TV or web-assisted courses. You'll have to put in a separate password for Blackboard. Initially it is your birthdate (**yyyymmdd**). Instructors may login to their course on the Blackboard site and access your user ID from there.

### **COMPUTER CLASSROOM/LAB NETWORK LOGIN**

This gives you access to computers in the student computer classroom and lab areas as well as to printing and storage of student files. The user ID and password are the same as for myMCCKC.

**If you need your user ID or password, go to myMCCKC and click on the "Need User ID" or "Need Password" links or call the MCC Techline at 816.759.1212.**
