Welcome to the MCC-Penn Valley Human Patient Simulation Laboratory!
Please review the following policies and guidelines for the Human Patient Simulation Laboratory at MCC-Penn Valley prior to submitting scheduling requests.
- Students should be instructed to check out a lock and place all personal and valuable items in one of the provided locked lockers.
Just like any patient care setting, hands must be washed before entering patient room.
▪ Food or drink is not allowed in the Human Patient Simulation Laboratory
- The patient care setting of the Human Patient Simulation Laboratory is a professional setting. Students should be dressed in appropriate clinical attire. This may include student clinical uniforms or business casual dress depending on the program.
Cancellations should be submitted as soon as possible, but a minimum of one week before the scheduled simulation.
The communication/planning form should be submitted within one week of scheduling a simulation.
Thanks for reviewing these policies for the Human Patient Simulation Laboratory at MCC-Penn Valley. Following these policies and guidelines will help us provide a quality experience to everyone using our lab.
