Hints for searching:

1. If you are searching for a very general subject such as dreams or stress, add another term separated by the word "and".
Ex. dreams and dreaming
Ex. stress and college
2. If you type in a term and the computer doesn't give you many articles, try typing in a different search term. For example; instead of the term "risky behavior" use:
Ex. at risk behavior
Ex. deviant behavior
3. You can also download articles to a disk or e-mail articles to another computer.
4. **PsycARTICLES** is another EBSCOhost database that you can use to find full text journal titles published by the American Psychological Association and allied organizations.
