# Rhythms IN NATURE:

An Exploration of Patterns

**FEBRUARY 1ST — MARCH 1ST, 2024**

"This exhibition is a reminder that patterns are not only a visual delight, but also a fundamental part of the tapestry of our shared human experience. It encourages the viewer to see the world through a different lens, to appreciate the artistry of the natural world, and to find inspiration within the patterns that surround us every day."

—**ELISE HANSON**, Guest Curator
