The Great Plains OSHA Education Center (GPOEC) is a consortium led by Metropolitan Community College in Kansas City, MO. Members of the GPOEC consortium include Barton Community College in Grandview Plaza, KS and Saint Louis University in St. Louis, MO. The GPOEC has established a network of Host Training Organizations to provide high-quality professional safety and health training throughout Missouri, Kansas, Iowa, and Nebraska. The courses offered at the GPOEC and the HTO locations will provide the knowledge to meet the demands of working in the safety profession.

Whether your business is construction, health care, manufacturing, food service, hospitality, or just about any other industry, creating and maintaining a safe, productive, compliant work environment is a critical business concern. We are here to help you achieve that goal. To stay competitive, employees must be trained more regularly than ever before.

Our technical courses on high hazard occupational safety and environmental compliance topics will keep you and your employees in the know on the latest environmental, health, and safety standards.

Great Plains OSHA Education Center courses are accepted for:

- American Board of Industrial Hygiene (ABIH)
- Certified Industrial Hygienist certificate maintenance (CM) points
- Certified Safety Professional (CSP) may earn continuance of certification (COC) points; OHST's and CHST's may earn certification maintenance (CM) points
- Workforce Investment Act (WIA) for displaced workers (at Metropolitan Community College, Saint Louis University, and Kirkwood Community College)
- Continuing Education Units (CEU's) are available at all locations

PLEASE NOTE: Due to COVID-19, some classes may be conducted virtually. Please contact the location you'd like to enroll for more information

OSHA 500 – Trainer Course in Standards in the Construction Industry (\$757)

Four Day course

Prerequisites: Students must have OSHA 510 in the past 7 years and have five years of safety related experience approved by the director.

Completion of this course allows the student to become an OSHA Authorized trainer in the OSHA Outreach Training Program and will be approved to conduct both 10- and 30-hour Construction Industry Outreach classes. Students must prepare a presentation on an assigned OSHA Construction Industry Outreach Training Program topic individually or as part of a group and successfully pass a written exam at the end of the course.

Omaha NE	3/22-3/25	Kansas City MO	7/19-7/22	Kansas City MO	10/25-10/28
Kansas City MO	4/27-4/30	Cedar Rapids IA	8/2-8/5		
Wichita KS (HCC)	5/24-5/27	Poplar Bluff MO	8/10-8/13		

OSHA 2055 – Cranes in Construction (\$649)

Three day course

This course covers the requirements for operation of cranes in the construction industry using the OSHA construction Cranes and Derricks Standard as a guide. Course topics include hazards associated with crane assembly and disassembly, types of cranes, lifting concepts, rigging and wire rope, signaling, employee qualifications and training, and maintenance, repair, and inspection requirements.

Location	Date	Location	Date
Wichita KS (AGC)	4/26-4/29	Kansas City MO	6/8-6/10

OSHA 2225 – Respiratory Protection (\$749)

Four day course

This course covers the requirements for the establishment, maintenance, and monitoring of a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements.

Location	Date	Location	Date	Location	Date
Omaha NE	1/25-1/27	West Des Moines IA. . .	5/18-5/21	St Louis MO	9/7-9/10
Omaha NE	2/8-2/11	Grandview Plaza KS. . .	6/14-6/17	Grandview Plaza KS. . .	9/20-9/23

Kansas City MO	2/23-2/26	Kansas City MO	6/22-6/25	Wichita KS (AGC)	10/18 -10/21
Wichita KS (AGC)	5/10-5/13	Omaha NE	8/23-8/26	Springfield MO	11/15-11/18

OSHA 2255 – Principles of Ergonomics (\$649)

Three day course

This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Course topics include work physiology, anthropometry, musculoskeletal disorders, use of video display terminals, and risk factors such as vibration, temperature, material handling, repetition, and lifting and patient transfers in health care.

Location	Date	Location	Date	Location	Date
Kansas City MO	1/12-1/14	Cedar Rapids IA	5/18-5/20	Kansas City MO	8/17-8/19
Joplin MO	3/16-3/18	Grandview Plaza KS. . .	6/22-6/24	Grandview Plaza KS. . .	11/1-11/3
Grandview Plaza KS. . .	4/12-4/14	West Des Moines IA. . .	6/30-7/2	Kansas City MO	11/9-11/11
Kansas City MO	4/13-4/15	Omaha NE	7/19-7/21	St Louis MO	11/9-11/12
Wichita KS (AGC)	5/3-5/6	Wichita KS (HCC)	8/10-8/12	Wichita KS (AGC)	12/6-12/9

OSHA 2264 – Permit-Required Confined Space Entry (\$649)

Three day course

This course covers the safety and health hazards associated with permit-required confined space entry. Course topics include recognition of confined space hazards, identification of permit and non-permit required confined spaces, use of instrumentation to evaluate atmospheric hazards, ventilation techniques, development and implementation of a confined space program, proper signage, and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

Location	Date	Location	Date	Location	Date
Kansas City MO	1/19-1/21	Omaha NE	5/12-5/14	Joplin MO	10/5-10/7

OSHA 3085 Principles of Scaffolding: (Call/Check Web for Pricing)

Three day course

This course covers the requirements for safe construction and use of scaffolding using OSHA's construction scaffold standards as a guide. Course topics include hazards associated with scaffold design, assembly, disassembly and use, types of scaffolds, determining scaffold capacity, employee qualifications and training and maintenance, repair and inspection requirements. Students will participate in workshops to reinforce concepts of safe scaffolding.

Location	Date	Location	Date
Wichita KS (AGC)	6/1-6/4	Wichita KS (AGC)	7/26-7/29
Kansas City MO	6/28-6/30	Cedar Rapids IA	11/16-11/18

OSHA 3095 – Electrical Standards (\$749)

Four day course

This course covers OSHA Electrical Standards and the hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters, and safety-related work practices. Emphasis is placed on electrical hazard recognition and OSHA Standards, policies, and procedures and applicable portions of the National Electrical Code (NEC). Students will participate in workshops on the safe and correct use of electrical testing equipment.

Location	Date	Location	Date	Location	Date
Grandview Plaza KS.	2/22-2/25	Grandview Plaza KS.	6/1-6/4	Wichita KS (AGC)	9/7-9/10
Omaha NE	2/22-2/25	Wichita KS (HCC)	8/2-8/5	Kansas City MO	9/13-9/16
Kansas City MO	3/8-3/11	Joplin MO	8/3-8/6	St Louis MO	10/5-10/8

Kansas City MO	5/24-5/27	West Des Moines IA.	8/24-8/27	Kansas City MO	11/30-12/3

OSHA 3115 – Fall Protection (\$649)

Three day course

This course covers the OSHA Fall Protection Standard for construction and an overview of fall protection methods. Course topics include principles of fall protection, components and limitations of fall arrest systems, and OSHA Standards and policies regarding fall protection. Students will participate in workshops demonstrating the inspection and use of fall protection equipment, residential construction fall protection, training requirements, and developing a fall protection program.

Omaha NE	5/5-5/7	Wichita KS (HCC)	9/14-9/16		

OSHA 5600 - Disaster Site Worker Trainer Course (\$749)

Four day course

This course prepares experienced Outreach Training Program trainers to present OSHA #7600 Disaster Site Worker Course, intended for second responders (those arriving hours or days after the event). Course topics include the National Response Framework, the Incident Command System, disaster work zone safety, respiratory protection, communication issues, applying elements of successful adult training programs, and knowledge, skills, and attitudes to awareness training about safety and health standards at natural and human-made disaster sites. Students are provided the opportunity to practice knowledge and skills through discussion, planned exercises, demonstrations, and presentations.

OSHA 5602 – Update for Disaster Site Worker Trainer Course (\$225)

One day Course

Prerequisites: OSHA 5600 Disaster Site Worker Trainer Course.

This course is intended to update the authorized Disaster Site Worker trainer with new technical and regulatory information related to disaster response and the role of OSHA in coordinating occupational safety and health in the National Response Framework.

Location Date

Grandview Plaza, KS 10/4

OSHA 7000 – OSHA Training Guidelines for Safe Patient Handling (\$225)

One day course

This course covers OSHA ergonomic guidelines for safe patient handling and methods to protect workers in all health care settings. Using OSHA's *Ergonomics Guidelines for Nursing Homes* as a basis for any healthcare facility, this course focuses on analyzing and identifying ergonomic hazards and practical solutions to address these issues.

Location Date Location Date Location Date

Grandview Plaza KS 1/22 Kansas City MO 5/28 Kansas City MO 9/24

St Louis MO 3/16-3/17 Grandview Plaza KS 7/22 St Louis MO 12/16

OSHA 7005 – Public Warehousing and Storage (\$225)

One day course

This course covers the hazards and injuries likely to occur in public warehousing and storage operations, including encounters with powered industrial trucks, material handling, lifting and ergonomics, hazard communication, walking and working surfaces, and life safety including fire protection and evacuation. This course is intended for warehouse workers, supervisors, and employers responsible for developing safe work practices and procedures in a warehouse setting.

Earn professional certification

Advance your career in the safety, health, environmental or risk management profession by earning a valuable credential. With an industry recognized certification, you can be prepared for a promotion, earn more money and show you are committed to your industry.

Why become certified?

- Increase your awareness of changing Federal Regulations
- Enhance your advancement opportunities
- Take the knowledge gained and implement it into your organization
- Earn recognition and respect of your peers
- CEUs are available

Career certifications

SSH: Specialist in Safety & Health

- This is a fundamental certificate program requiring just four (4) OSHA courses.
- You can choose from General Industry, Construction Industry or Healthcare Career Certification Tracks.

CSHO: Certified Safety & Health Official

- Requires six core OSHA courses and two elective courses
- Nationally recognized professional safety and health certification.
- You can choose from General Industry or Construction Industry Career Certification Tracks.
- Courses can be applied toward advanced level certifications

and advance your career.

SHEP: Safety, Health & Environmental Professional

- One (1) of the following:
 - CSHO-Construction Industry Certification
 - CHSO-General Industry Certification

AND

- 2 Environmental Courses
- 1 Risk Management Course
- Course credits from SSH and CSHO apply toward SHEP course credit.

PSSH: Public Sector Safety & Health

- Requires three (3) core OSHA courses and twenty nine (29) hours of elective courses
- You can choose from Construction Industry or General Industry Career Certification Tracks.

Get started.

There is an application fee that does not have to be paid to start. So get started today. Call the Great Plains OSHA Education Center in your area. Contact information can be found on Page 2.

OSHA 7105 – Evacuation and Emergency Planning (\$150)

Half day course

This course covers OSHA requirements for emergency action and fire protection plans. Course topics include purpose and requirements of emergency action and fire prevention plans, elements of emergency evacuation plans, and features of design and maintenance of emergency exit routes. Students will participate in workshops pertaining to the development of emergency action plans.

Great Plains OSHA Education Center

EHSM/RMSM Courses

Call or visit web for pricing for EHSM/RMSM Courses.

Great Plains OSHA Education Center, along with our Host Training Organizations located throughout Missouri, Kansas, Iowa & Nebraska, have a proven record of results. We are dedicated to providing services that are designed to improve the quality of your organization's safety program to meet regulatory standards and protect workers.

Whether your business is construction, health care, food service, manufacturing, hospitality, or just about any other industry, creating and maintaining a safe work environment is a critical business concern. Our technical courses on occupational safety and environmental compliance topics will keep you and your employees in the know on the latest environmental health and safety standards.

Courses listed below are offered at our Campus or one of our Host Training Organizations as an Open Enrollment option; please e-mail safety.first@mcckc.edu for enrollment questions. Also if you are interested in the 10 or 30 General or Construction Industry course, please call 816.604.5416 to schedule or to obtain contact information for an OSHA Authorized Trainer.

RMSM 6010 – Safety, Health and Environmental Risk Management Principles **(Call/Check web for Pricing)**

Three day course

This course provides students whose careers have focused on particular segments of risk management a more global picture of risk identification and control. The course will use breakout sessions to work on risk management problems, class discussion and instructor resources. The course will provide an overview of risk management and its application for companies, identifying the cost of risk, and prioritizing, managing, and controlling risk.

EHSM 7930 – Environmental Air Regulations (Call/Check web for Pricing)

One day course

This course provides an overview of EPA regulations for the Clean Air Act (CAA), Toxic Substance Control Act (TSCA), National Environmental Protection Act (NEPA) and Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). Subject areas included in this course are EPA history and specific regulations regarding air and pesticides.

<i>Location</i>	<i>Date</i>
Kansas City MO	3/1

EHSM 7931 – Resource Conservation & Recovery Act (RCRA) Refresher (Call/Check web for Pricing)

One day course

This course provides an overview of the Resource Conservation Recovery Act (RCRA). The course will include hazardous waste identification, on-site waste management options, land disposal restrictions, hazardous waste manifests, universal wastes and generator status. This course meets the requirements for the annual refresher.

Location *Date*
Kansas City MO 4/16

EHSM 7932 – Environmental Water Regulations (Call/Check web for Pricing)

One day course

This course provides an overview of the EPA regulations related to the Clean Water Act (CWA), Safe Drinking Water Act (SDWA) and the Endangered Species Act (ESA).

Location *Date*
Kansas City MO 4/23

EHSM 7940 – Shipping, Handling & Storage of Hazardous Substance (DOT) Air (Call/Check web for Pricing)

One day course

This intensive one day course covers procedures for safe handling, storing, and preparing hazardous substances for shipment by air as required by the International Civil Aviation Organization. Students will receive up to date, hands-on instruction in requirements for domestic and international shipments, classifications according to the Dangerous Goods Table & packing and labeling specifications. In addition, an update/refresher of applicable Department of Transportation regulations is presented.

Location *Date*
Kansas City MO 5/7

EHSM 7941 – Shipping, Handling & Storage of Hazardous Substance (DOT) Ground (Call/Check web for Pricing)

One day course

This intensive one day course covers procedures for safe handling, storing, and preparing hazardous substances for shipment by ground as required by applicable Department of Transportation regulations. You will receive up-to-date, hands-on instruction in using reference materials, labeling, and preparing materials for shipment. Students will also learn the critical competencies required for properly responding to hazardous substance emergencies.

Location *Date*
Kansas City MO 5/14

EHSM 7950 – Powered Industrial Trucks - Train the Trainer (Call/Check web for Pricing)

Half day course

This four hour seminar will discuss basic training techniques, the OSHA requirements for powered industrial truck training and methods to present this training to powered industrial truck operators.

Location *Date* *Location* *Date* *Location* *Date*
Kansas City MO 4/30 Kansas City MO 8/6 Kansas City MO 11/12

EHSM 7955 – Construction Industry Safety and Health Outreach Program (Call/Check web for Pricing)

10-hour

This course provides the participants with an overview of the OSHA standards relevant to the construction industry. Various topics are presented in a 10 hour format. Among the subjects covered in the program are: an introduction to OSHA, electrical safety, fall protection, excavation, and trenching safety.
