<td>He was board-certified radiologist with Iowa Radiology in Des Moines, and was a member of the Iowa Radiological Society, The Radiological Society of North America, the American College of Radiology, the Society of Radiologists in Ultrasound, the American Roentgen Ray Society and the Aircraft Owners and Pilots Association. He was a presenter at RSNA in 1987 and in 2007. His interests ranged from photography to ballet to flying, and he pursued those interests with intensity and passion. He never accepted the status quo and always wanted to pursue his interests to the next level. A licensed glider pilot before he earned his driver's license, he eventually became an instrument-certified pilot who continued to challenge himself with aerobatics and testing his instrument flying skills in &quot;real&quot; weather. He began his studies at the University of Iowa on a ballet scholarship, and his athleticism made him exciting to watch on stage. He also was known for his dry sense of humor and quick wit.</td>

Dinah Athans came to Synergy Services as many do, looking for someone to talk to about circumstances that occurred in her life that she had no control over. The Synergy counselors gave her their ear, their care and understanding. Dinah came to know that her opportunity to live the life she desired was through obtaining an education. At the time of Dinah's death, she was attending the Maple Woods campus of the Metropolitan Community College of Kansas City, where she was taking 17 hours in the fall of 2008. After her death, Dinah's friends wanted to do something in Dinah's name that would carry on her spirit. Listening to and reading comments from her teachers and classmates about her enthusiasm in class gave them the idea that they wanted to do something to help others who faced circumstance in life as Dinah had. They wanted to pass on Dinah's vision to carry on the spirit of her education and opportunities to live her life to the fullest. |
