## **Associate in Arts (A.A.)**

### **History Emphasis – Part-Time Advising Guide**

Knowing history is the mark of a well-educated person. Amazing people have lived before us. Momentous times have shaped us. The power of history is inescapable. It lives today in how we think, act, dress, and live. It is the force that has created countries, conflicts, and cultures. It can also be the foundations of a rewarding career. Teaching is not the only career for history graduates. Many seek careers in law school, public history, historic preservation, communication, government work, business and industry. Our history courses include: U.S., African American, English history, Western Civilization, Women’s, and American Frontiers. Our history program is built around the Associate in Arts (AA) degree. This degree gives you a solid two-year background in general education courses that can transfer to a four-year institution
