

# Academic & Career **PATHWAYS**

## **Associate in Arts (A.A.)**

### **Philosophy Emphasis - Advising Guide**

Philosophers deal with the most difficult problems that there are. After working on these kinds of problems, the ordinary problems of daily life seem more trivial. Although relatively few people become professional philosophers, the study of philosophy is a vital part of your college education. Philosophy courses have many benefits. You will learn to think deeply, creatively, critically, and communicate competently and thoroughly. All of these will help you in any endeavor, whether it's law, teaching, diplomacy, public service, publishing, journalism, the ministry, the social or natural sciences, mathematics, business, or the arts. Choose from courses that include ethics, logic, world religion, and critical thinking. Our philosophy program is built around the Associate in Arts (AA) degree. This degree gives you a solid two-year background in general education courses that can transfer to a four-year institution.

<b>Semester 1</b>		
Course	Credits	Action Steps
^ENGL 101 (Written Communications)	3	<ul style="list-style-type: none"> <li>Meet with Academic Advisor to build academic plan</li> </ul>

<b>Total Credits</b>	<b>9-10*</b>	
<b>Credits Required</b>	<b>60*</b>	
<i>*The A.A. degree requires a minimum of 60 total credits to graduate. When selecting a course from multiple options, please consider the number of credits for each course to ensure meeting the minimum requirements for graduation</i>		

This Pathway Map is an advising tool designed for full-time students on this A.A. degree and identifies the course taking recommendation for timely degree completion. Please be aware that all pathway maps can be modified to fit the individual needs of students. Degree requirements and prerequisite information can be found here:

<https://www.mcckc.edu/programs/aa/> All students are encouraged to meet with their academic advisor to develop an individualized completion plan that best meets their goals, interests, and objectives.

^Course requires a prerequisite or appropriate placement, see catalog for additional information.

^^Two natural sciences courses are required for this degree and must be from two different disciplines. Example: a biology and a chemistry class.
