Great Plains OSHA Education Center

2019 OSHA Courses

The Great Plains OSHA Education Center (GPOEC) is a consortium led by the Metropolitan Community College in Kansas City, MO. Members of the GPOEC consortium includes Barton Community College in Grandview Plaza, KS and Saint Louis University in St. Louis, MO. The GPOEC has established a network of Host Training Organizations to provide high-quality professional safety and health training throughout Missouri, Kansas, Iowa, and Nebraska. To stay competitive, employees must be trained more regularly than ever before. The courses offered at the GPOEC and the HTO locations will provide the knowledge to meet the demands of working in the safety profession.

Whether your business is construction, health care, manufacturing, food service, hospitality, or just about any other industry, creating and maintaining a safe, productive, compliant work environment is a critical business concern. We are here to help you achieve that goal.

Our technical courses on high hazard occupational safety and environmental compliance topics will keep you and your employees in the know on the latest environmental, health, and safety standards.

Great Plains OSHA Education Center courses are accepted for:

- American Board of Industrial Hygiene (ABIH)
- Certified Industrial Hygienist certificate maintenance (CM) points
- Certified Safety Professional (CSP) may earn continuance of certification (COC) points; OHST's and CHST's may earn certification maintenance (CM) points
- Workforce Investment Act (WIA) for displaced workers (at Metropolitan Community College, Saint Louis University, and Kirkwood Community College)
- Continuing Education Units (CEU's) are available at all locations

OSHA 500 – Trainer Course in Standards in the Construction Industry (\$757)

Four Day course

Prerequisites: Students must have OSHA 510 in the past 7 years and have five years of safety related experience approved by the director.

Completion of this course allows the student to become an OSHA Authorized trainer in the OSHA Outreach Training Program and will be approved to conduct both 10- and 30-hour Construction Industry Outreach classes. Students must prepare a presentation on an assigned OSHA Construction Industry Outreach Training Program topic individually or as part of a group and successfully pass a written exam at the end of the course.

OSHA 502 – Update for Construction Industry Outreach Trainers (\$657)

Three day course

Prerequisite: OSHA 500 Trainer Course in Standards for the Construction Industry

This course is designed for Outreach Training Program trainers who have completed OSHA 500 *Trainer Course in Occupational Safety and Health Standards for the Construction Industry* and are authorized trainers in the OSHA Outreach Training Program. The course provides an update on OSHA Construction Standards, policies, and regulations.

Wichita KS (BCC)	5/1-5/3	Hutchinson KS	7/15-7/17	St. Louis MO	12/3-12/6

OSHA 2264 – Permit-Required Confined Space Entry (\$649)

Three day course

This course covers the safety and health hazards associated with permit-required confined space entry. Course topics include recognition of confined space hazards, identification of permit and non-permit required confined spaces, use of instrumentation to evaluate atmospheric hazards, ventilation techniques, development and implementation of a confined space program, proper signage, and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

Kansas City MO	5/7-5/9	Wichita KS (BCC)	9/4-9/6		

OSHA 3015 – Excavation, Trenching and Soil Mechanics (\$649)

Three day course

This course covers the OSHA Excavation Standard and safety and health aspects of excavation and trenching. Course topics include practical soil mechanics and its relationship to the stability of shored and unshored slopes and walls of excavations, introduction of various types of shoring (wood timbers and hydraulic), soil classification, and use of protective systems.

OSHA 3085 Principles of Scaffolding: (Call/Check Web for Pricing)

Three day course

This course covers the requirements for safe construction and use of scaffolding using OSHA's construction scaffold standards as a guide. Course topics include hazards associated with scaffold design, assembly, disassembly and use, types of scaffolds, determining scaffold capacity, employee qualifications and training and maintenance, repair and inspection requirements. Students will participate in workshops to reinforce concepts of safe scaffolding.

<i>Location</i>	<i>Dates</i>	<i>Location</i>	<i>Dates</i>	<i>Location</i>	<i>Dates</i>

Wichita KS (AGC)	5/13-5/15	Wichita KS (AGC)	10/7-10/9		

OSHA 3095 – Electrical Standards (\$749)

Four day course

This course covers OSHA Electrical Standards and the hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters, and safety-related work practices. Emphasis is placed on electrical hazard recognition and OSHA Standards, policies, and procedures and applicable portions of the National Electrical Code (NEC). Students will participate in workshops on the safe and correct use of electrical testing equipment.

Location	Dates	Location	Dates	Location	Dates

OSHA 3115 – Fall Protection (\$649)

Three day course

This course covers the OSHA Fall Protection Standard for construction and an overview of fall protection methods. Course topics include principles of fall protection, components and limitations of fall arrest systems, and OSHA Standards and policies regarding fall protection. Students will participate in workshops demonstrating the inspection and use of fall protection equipment, residential construction fall protection, training requirements, and developing a fall protection program.

OSHA 5400 – Trainer Course in OSHA Standards for the Maritime Industry (\$749)

Four day course

Prerequisites: *Students must successfully complete the OSHA #5410 Occupational Safety and Health Standards for the Maritime Industry and have three (3) years maritime industry experience and at least two (2) years of occupational safety and health experience*

This course is designed for individuals interested in teaching the 10- and 30-hour Maritime safety and health Outreach Training Program to their employees and other interested groups. Special emphasis is placed on those topics required in the 10- and 30-hour Outreach Training Program as well as the most hazardous in the maritime industry using OSHA Maritime Standards as a guide.

Location	Dates
St. Louis MO	10/15-10/18

OSHA 5402 – Update for Maritime Outreach Trainers (\$599)

Three day course

Prerequisites: OSHA #5400 Trainer Course in OSHA Standards for the Maritime Industry.

This course is designed for individuals who have successfully completed OSHA course #5400 Trainer Course in OSHA Standards for the Maritime Industry and are active Outreach Training Program trainers. The course updates the OSHA Maritime standards, policies, and regulations.

<i>Location</i>	<i>Dates</i>
St. Louis MO	5/29-5/31

OSHA 5410 – OSHA Standards for the Maritime Industry (\$899)

This course covers OSHA policies, procedures, and standards for the maritime industry. Using the OSHA Maritime Standards as a guide, special emphasis is placed on those areas in the maritime industry which are most hazardous.

<i>Location</i>	<i>Dates</i>
St. Louis MO	7/15-7/19

OSHA #5600 - Disaster Site Worker Trainer Course

Five day course

This course prepares experienced Outreach Training Program trainers to present OSHA #7600 Disaster Site Worker Course, intended for second responders (those arriving hours or days after the event). Course topics include the National Response Framework, the Incident Command System, disaster work zone safety, respiratory protection, communication issues, applying elements of successful adult training programs, and knowledge, skills, and attitudes to awareness training about safety and health standards at natural and human-made disaster sites. Students are provided the opportunity to practice knowledge and skills through discussion, planned exercises, demonstrations, and presentations.

<i>Location</i>	<i>Dates</i>
Grandview Plaza KS	8/5-8/8
St. Louis MO	8/6-8/9

OSHA 6005 – Collateral Duty Course for Federal Agencies (\$749)

Four day course

This course covers the OSH Act, Executive Order 12196, and the OSHA General Industry Standards. This course is intended for federal agency collateral duty safety and health personnel. With use of the OSHA General Industry Standards, special emphasis is placed on areas in general industry which are most hazardous.

<i>Location</i>	<i>Dates</i>
St. Louis MO	3/12-3/15
St. Louis MO	9/24-9/27

Earn professional certification

Advance your career in the safety, health, environmental or risk management profession by earning a valuable credential. With an industry recognized certification, you can be prepared for a promotion, earn more money and show you are committed to your industry.

Why become certified?

- Increase your awareness of changing Federal Regulations
- Enhance your advancement opportunities
- Take the knowledge gained and implement it into your organization
- Earn recognition and respect of your peers
- CEUs are available

Career certifications

SSH: Specialist in Safety & Health

- This is a fundamental certificate program requiring just four (4) OSHA courses.
- You can choose from General Industry, Construction Industry or Healthcare Career Certification Tracks.

CSHO: Certified Safety & Health Official

- Requires six core OSHA courses and two elective courses
- Nationally recognized professional safety and health certification.
- You can choose from General Industry or Construction Industry Career Certification Tracks.
- Courses can be applied toward advanced level certifications

and advance your career.

SHEP: Safety, Health & Environmental Professional

- One (1) of the following:
 - CSHO-Construction Industry Certification
 - CHSO-General Industry Certification

AND

- 2 Environmental Courses
- 1 Risk Management Course
- Course credits from SSH and CSHO apply toward SHEP course credit.

PSSH: Public Sector Safety & Health

- Requires three (3) core OSHA courses and twenty nine (29) hours of elective courses
- You can choose from Construction Industry or General Industry Career Certification Tracks.

Great Plains OSHA Education Center

EHSM/RMSM Courses

Call or visit web for pricing for EHSM/RMSM Courses.

Great Plains OSHA Education Center along with our Host Training Organizations located throughout Missouri, Kansas, Iowa & Nebraska have a proven record of results. We are dedicated to providing services that are designed to improve the quality of your organization's safety program to meet regulatory standards and protect workers.

Whether your business is construction, health care, food service, manufacturing, hospitality, or just about any other industry, creating and maintaining a safe work environment is a critical business concern. Our technical courses on occupational safety and environmental compliance topics will keep you and your employees in the know on the latest environmental health and safety standards.

Courses listed below are offered at our Campus or one of our Host Training Organizations as an Open Enrollment option; please e-mail safety.first@mccck.edu for enrollment questions. Also if you are interested in the 10 or 30 General or Construction Industry course contact please call 816.604.5416 to schedule or to obtain contact information for an OSHA Authorized Trainer.

RMSM 6010 – Safety, Health and Environmental Risk Management Principles **(Call/Check web for Pricing)**

Three day course

This course provides students whose careers have focused on particular segments of risk management a more global picture of risk identification and control. The course will use breakout sessions to work on risk management problems, class discussion and instructor resources. The course will provide an overview of risk management and its application for companies, identifying the cost of risk, and prioritizing, managing, and controlling risk.
