## WHY WE DO WHAT WE DO

It initially started as a passion project because I just love upcycling as a craft. The process of reimagining something and turning it into something brand new never fails to fascinate me. I sought out opportunities from that and set up The Upcycle Movement to highlight these challenges and inspire creative thinking towards a more sustainable, circular economy.

# UPCYCLE ART FESTIVAL 2022

"It's only waste if we waste its potential"

## PROGRAM

A very warm welcome to The Upcycle Movement!

I am absolutely fascinated by the creative and quality designs that come about from re-thinking and re-purposing unwanted items and so I have set up The Upcycle Movement to share all the wonderfully ingenious ideas out there!

Upcycling may be a relatively new term but it's not a new concept - it simply got lost in modern day consumerism, convenience & society's throwaway mindset. To upcycle something is simply to re-purpose something that would otherwise be considered waste & to lift its value and quality by doing so. The difference between upcycling and recycling is that when you recycle something, generally the components are broken down and the result is an item of lesser quality eg. recycled paper.

The aim of The Upcycle Movement is to build a supportive community of upcyclers and to create a platform in which we can share ideas and techniques, source & reuse offcuts and discards, design new products, lessen unnecessary waste, teach, learn and generally promote upcycling. The possibilities really are endless. With The Upcycle Movement I hope to open the door to those possibilities by bringing upcyclers together to collaborate & to act as a launching pad to showcase new upcycle businesses and products.

I have been living, breathing and dreaming about The Upcycle Movement organisation and the opportunities that I hope it will create - the doors it may open, the waste solutions, and the ideas & designs it may inspire.

The first BIG upcycle market took place in Silborgan Park Hotel 23rd - 25th August 2013 and was a great success! Collaborated with Gwen Jeffers of Stillbebe & Gray to organize the event. The second BIG Upcycle market took place on 20th Nov 2013 in the same venue. The market is an opportunity for related upcyclers to get together under the one roof and to sell & showcase their products. Gwen and I hope that further collaborations will emerge from the event.

The Upcycle Movement also offers services including Design, Commissions, Interior Re-Design and Workshops.

I would also like to say a MASSIVE thank you to OZGO Solutions www.ozgosolutions.com for their incredible work developing the website I am so thrilled with it and can't recommend them highly enough. Thank you for your support, patience, wonderful knowledge and skills which have helped me bring my vision into reality!

And a big special thank you to you all for popping by and looking around the website. I hope that you will all be inspired to participate and join The Upcycle Movement!

So over to you now the users and visitors of the website to bombard me with all your fantastic upcycling ideas, overviews and designs. Look forward to sharing them on the website for others to be inspired by!
