

**Metropolitan Community College-Penn Valley-HSI**  
**Physical Therapist Assistant Program**  
**Policy on Transportation and Housing on Clinical Rotations**

1. Students may be required to drive within a one hour radius or be placed at a clinical site out of town if needed.
2. Considerations will be given to student situation and preference; however, educational needs will be given higher priority.
3. Students are responsible for transportation to and from the clinical site and are not to ride with clinical instructors.
4. The student will bear all expenses associated with placement (i.e. housing, meals, and transportation). Clinical sites may provide housing at no cost in rare instances. It is the responsibility of the student to determine appropriateness and safety of the accommodations prior to accepting the arrangement.
5. Accidents occurring as a result of travel to the clinical site are the sole responsibility of the student.
