 MWSU Education Department admissions note: Prospective transfer students are advised to review the education departmental admissions requirements stated under the Department of Education in the MWSU catalog.

(1) A minimum of 124 credits is required for graduation including 60 from a senior college, thus a maximum of 64 credit hours will typically transfer in for this degree. Lower division credit hours completed beyond the Associate degree will be evaluated for transfer on a course-by-course basis.

(2) For the baccalaureate degree, 30 of the last 45 credits of coursework must be earned at MWSU with a minimum of 30 credits in upper division courses. Lower division transfer courses accepted as meeting upper departmental course requirements cannot be used to fulfill this requirement. Please reference the current MWSU catalog at www.missouriwestern.edu/Catalog for complete information on degree requirements.

(3) The course equivalents presented in this articulation are subject to change, with final review at the discretion of the faculty of the academic department responsible for providing the specified degree. Please reference the current MWSU catalog at www.missouriwestern.edu/Catalog for complete information on degree requirements.

(4) Student participation in departmental and campus wide assessment efforts is periodically required. Contact the MWSU Academic and Student Affairs Office at (816-271-4364) for more information.

(5) Current MWSU students who want to transfer in community college coursework need to consult their departmental academic advisor, and submit a Transfer Credit Approval Form before taking the course(s) at a college or university other than MWSU.

All courses must be at least 100 level or higher.
 Courses can only be used once to meet degree requirements.
 Students must complete a Writing Intensive course AND either a Human Diversity course or Learning Community as part of the General Education requirements.
 Students must achieve a minimum GPA of 2.5
 Students must achieve minimum scores of 235 on each section of the C-BASE for Teachers
 We recognize that four-year transfer institutions may have additional requirements including higher GPA, higher C-BASE scores, or additional courses that could be taken at the community college level. Students are encouraged to work closely with an advisor from the receiving institution so that they may understand and prepare to meet all entrance requirements.
